

LEARN TO PROGRAM WITH PYTHON

PYTHON PROGRAMMER

Learn to program using a language that's growing in popularity—Python! This course is designed for students with little to no previous programming experience.

Python is used in virtually every field imaginable, including:

- Web development
- Game development
- Medicine
- Robotics
- And more!

After mastering the fundamentals, you'll be prepared to take the Certified Entry-Level Python Programmer certification exam. This course is a great prerequisite before moving on to more advanced programming courses.

Note: All students must attend mandatory orientation before the first day of class.

DID YOU KNOW?

The median annual salary for computer programmers with a bachelor's degree in 2021 was **\$47,560***

*Bureau of Labor Statistics 2021
